

Enter Topic Here

To place photos in the paint boxes, double click in the box. When the cursor changes to a pencil icon, drag a photo into the box. The photo will be resized to 300 dpi. Use Scale by Percent in the Arrange Menu to resize the photo. Once it is sized drag it to the top left corner of the box and drag the bottom and right edges of the box to fit around the photo. Once you click off the photo it becomes locked in place in the window.
