

Data To Keep In Mind

Miles Per Gallon (MPG)

In math we determined,

30 MPG as the average gas mileage for a compact car

24 MPG as the average gas mileage for an intermediate-size car

18 MPG as the average gas mileage for a full-size car

15 MPG as the average gas mileage for a mini-van or SUV

Gas Cost Per Gallon (CPG)

The average cost is \$1.83 per gallon of gas.

Transportation Costs While In Each City

Parking: \$ 5.00 when driving to a location other than a restaurant or hotel.

Taxi: \$ 4.00 per trip

Train/Subway: \$.25 per person per trip

Bus: \$.30 per person per trip

Hotels And Meals

Determine costs using actual information whenever possible for each hotel stay and meal. If actual information is unavailable, estimate what would be reasonable costs. Calculate hotel cost based upon no more than two people to a room.
