GLOBAL

Within and beyond the school walls, learners independently seek to...

Explore and develop personal interests, inquiries, and passions.

Navigate through diverse sources and perspectives to reach discerning and thoughtful understandings.

Use processes (e.g., design thinking, creative problem solving, and systems thinking) to develop solutions and to understand the role of failure in learning.

Craft communication through choice of mode(s) of expression, strategic use of evidence, and command of language to reach intended audience(s).

Advocate for self and others by drawing on compassion and courage to speak up for what's right and just.

Investigate challenging contemporary global and local issues by pursuing questions or lines of thinking.

Set learning goal(s) that are pursued and evaluated until the goal(s) are realized or new ideas emerge.

Share stories, ideas, and points of view while engaging others to think interdependently and act collectively.

Make informed choices that support social, emotional and personal health and well-being.
