Appendix A
Rothman ACT: Home Care Recommendations for Concussed Athletes

Name of Athlete: ___________________________ Sport __________________

Date of Injury: ___________ Home phone ________________________________

Parent/Guardian Name: ____________________________________________

Your son/daughter has sustained a head injury while participating in ____________________.

After an athlete has been evaluated for a concussion the following should be implemented and monitored by a parent/guardian. In the event that any or all symptoms noted below change or occur, seek immediate medical attention.

- Deteriorating symptoms
- New presenting symptoms
- Deteriorating level of consciousness

Rest: Physical and cognitive. Rest is the number 1 priority in concussion management. Limit the athlete’s exposure to computers, video games, internet, texting, TV and driving in the first 24-48 hours following the diagnosis of a concussion. Athletes should not participate in any kind of physical activity whatsoever.

Medications that should be AVOIDED include Aspirin and NSAIDS (Non-Steroidal Anti-inflammatory Drugs such as Advil/ibuprophen):

In some instances, the signs and symptoms of a concussion do not become obvious until several hours or even days after the injury. This is why we place your son/daughter on a 24 hour Concussion Watch. Please be especially observant for the following signs and symptoms:

1) Headache (especially one that increases in intensity*)
2) Nausea and vomiting *
3) Difference in pupil size from right to left eye, dilated pupils*
4) Mental confusion/behavior changes
5) Dizziness
6) Memory Loss
7) Ringing in the ears
8) Changes in gait or balance
9) Blurry or double vision*
10) Slurred speech*
11) Noticeable changes in the level of consciousness (difficulty awakening, or losing consciousness suddenly*)
12) Seizure activity *
13) Decreased or irregular pulse or respiration*

*Seek medical attention at the nearest emergency department.

Current symptoms reported by your son/daughter to ATC: ______________________________________
Appendix A  
Rothman ACT: Home Care Recommendations for Concussed Athletes

The best guideline is to note symptoms that worsen, and behaviors that seem to represent a change in your son/daughter. If you have any questions or concerns at all about the symptoms you are observing, contact your family physician for instructions, or seek medical attention at the closest emergency department. Otherwise you can follow the instructions outlined below:

<table>
<thead>
<tr>
<th>It is OK to:</th>
<th>There is NO need to:</th>
<th>Do NOT:</th>
<th>Limit:</th>
</tr>
</thead>
<tbody>
<tr>
<td>Use ice pack on head and neck as needed for comfort</td>
<td>Check eyes with a flashlight</td>
<td>Drink alcohol</td>
<td>TV to 30 minutes or less</td>
</tr>
<tr>
<td>Eat a light diet</td>
<td>Wake up every hour unless athlete is under the age of 14.</td>
<td>Drive while symptomatic</td>
<td>School work if symptomatic- take breaks to control symptoms.</td>
</tr>
<tr>
<td>Go to Sleep</td>
<td>Test reflexes</td>
<td>Exercise</td>
<td>Limit or exclude computer work</td>
</tr>
<tr>
<td>Rest (no strenuous activity or sports until cleared)</td>
<td>Stay in bed</td>
<td>Take ibuprofen, aspirin, naproxen or other non-steroidal anti-inflammatory medications until cleared by physician.</td>
<td>Stimulation from bright lights and loud noises</td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
<td>Play video games</td>
</tr>
</tbody>
</table>

The goal for the first 24 hours is to rest as much as possible to allow the Brain to heal!!

Please remind your child to check in with the School Nurse PRIOR TO GOING TO CLASS on the first day he or she returns to school as well as reporting to the ATC after school to continue care.
