Sound teeth are one of your child's
most valuable natural possessions. But

vere damage to children's teeth, dam-
age that could remain with them
permanently.

Today, you can provide your child
with dental accident insurance at an
economical cost.

Remember, the more active
your child is, the greater the

Think you already have enough insurance? Read why your present insurance coverage may be inadequate to cover some injuries . . .

HERE ARE REASONS WHY YOUR PRESENT MEDICAL INSURANCE MAY FAIL TO FULLY COVER INJURIES TO YOUR CHILDREN.

- Most individual and group insurance plans have annual deductibles and coinsurance percentages which frequently result in out of pocket expenses to you.
- Dental injuries are excluded under some policies. Our policy provides a dental allowance of up to the usual and customary charge for covered accidental injuries to sound and natural teeth.
- Doctor visits are excluded under some policies, unless the doctor performs surgery of some sort. This policy covers doctor visits even when there is no surgery.
- Under some policies X-Ray coverage is limited. Our policy provides coverage for x-rays, both in and out of hospitals for covered accidental injuries.
- There is no deductible under this accident policy as there are under many medical plans.
- Children DO HAVE ACCIDENTS. Despite close care and supervision, active children do suffer injuries. For an economical cost, you can buy the coverage necessary for your child.
