

Dear Families,

Plans are well underway for the district's fourth annual Family STEM Night! We are looking forward to another wonderful evening of families exploring, creating and learning together! This year we are again inviting all students, kindergarten through fifth grade, and are eager to see families dive into an evening of creative collaboration and construction!

This year we are asking for your help in providing some materials for a few of the activities. We are in need of common household items that are generally recycled. We will recycle them, just in a creative way during our event! If you have any of the following items to donate, please send them to your child's teacher in a bag marked "Family STEM Night."

- Toilet paper rolls
- Egg cartons
- Water bottles with caps

Thank you for your support of these efforts! Hopefully we will see you on Monday, May 20, 2019 for this year's Family STEM Night!

Nancy Acconciamesa  
Supervisor of Elementary STEM
